K. Lyden, First Selectman presented plans for a pavilion on 89 Norwich Road. The plan includes an entrance and parking lot leading to the pavilion area. He informed the Commission there were no wetlands or upland review areas involved.

The Commission had some general questions about wells, electricity, and the placement of the pavilion.

K. Lyden stated there would be electricity for the pavilion but if there were to be a well it would be for cleaning or watering of plants or grass, it would not be potable water. As to the location of the pavilion he stated there was a committee chaired by Jim Fogarty which researched the location of the proposed pavilion.
